“The union is a student-centered organization that values participatory decision-making. Through volunteerism, its boards, committees, and student employment, the union offers first-hand experience in citizenship and educates students in leadership, social responsibility, and values. In all its processes, the union encourages self-directed activity, giving maximum opportunity for self-realization and for growth in individual social competency and group effectiveness.” - The role of the College Union, 1996

It is appropriate that a building that educates students in leadership, social responsibility and values be a building that exhibits leadership in responsible stewardship of the environment.
